

Hubbell Lighting is pleased to introduce a new logo for the Lighting Solutions Center.

The new logo embodies core elements of what education means to Hubbell Lighting and our value to the industry.

The Lighting Solutions Center provides a comprehensive approach to education and training focused on today's lighting challenges.

The logo's square, stone-like shape symbolizes knowledge as a cornerstone to advancement and growth.

Industry leading instructors with diverse backgrounds create a learning environment described as experiential and practical.

The block element within the logo represents "building blocks" for students enrolled in courses designed to empower their future success.

The black and yellow colors within the logo pay tribute to Hubbell's legacy and industry leadership.

Just as violet and red complete the band of colors within the visible spectrum of light, the Lighting Solutions Center provides a wide array of training options for personal and professional development.

Experience cutting-edge education at a newly remodeled center by visiting the Lighting Solutions Center's website and reserving your spot in a course today.
